

## Accelerate your digital transformation journey fi-8150

The fi-8150 front-office scanner for light workloads employs innovative feeding and Clear Image Capture technology to deliver industry-leading reliability.

### Image Quality

Clear Image Capture (CIC) technology resets the benchmark for high quality image capture, by combining the reliability and flexibility of Contact Imaging Sensor (CIS) hardware, with an industry-leading, image processor. CIC technology delivers precise, crisp images, and industry-leading OCR accuracy rates while also removing unwanted watermarks and artifacts.

### Paper Feeding

Evolved paper handling with a large 100-page hopper, an all-wheel drive mechanism, and fast 100 images captured per minute, make the fi-8150 one of the easiest and most efficient scanners to operate. The patented Automatic Separation Control uses state-of-the-art technology to sense paper weights and adjusts to consistently separate documents and provide the perfect feed, ensuring documents are safely captured.

### Reliability

The fi-8150 is built to last and powers up every time you need it, regardless of job size. Strong urethane rollers, heavy-duty motors, a sturdy frame, and durable consumables combine for a long-lasting scanner that will let your organization capture the volumes of paper from seasonal peaks and heavy backlogs, worry-free. Backed by Ricoh's US-based, legendary solutions architects and support teams.

#### PaperStream IP

Compatible with all major document management software packages, PaperStream IP (PSIP) is a TWAIN/ISIS® compliant driver that cleans up and optimizes scanned images without any configuration.

#### PaperStream Capture

Take advantage of powerful indexing and sorting features, putting the document in the right location for great organization and fast retrieval. Now includes both 2D and 1D barcode support in the box.

#### PaperStream ClickScan

Easy-to-use capture software for any business. Simple scanning interface with 3-steps: scan, select destination, and save.

#### Flexible connectivity options

Choose between PaperStream IP Net for flexible, adaptable capture architectures, and PaperStream NX Manager for centralized, server-based capture.

# The next generation in scanning excellence
